

## PRINTABLE FABRIC BASE CLOTHS

Sourced specifically for the architecture, design and furnishing industry, our high quality fabrics are printed using the dye sublimation method ensuing long lasting print results. All of our print products fulfil the strenuous demands of the commercial design market. Meeting industry standards our base cloths, printed in Australia, are certified for flammability, abrasion and cleaning.

## POLLOCK

GO TO CONTRACT UPHOLSTERY OPTION WITH A MEDIUM WEAVE TEXTURE

# VAN GOGH

VELVET BASE CLOTH

COMPOSITION: 100% Polyester

BASE CLOTH WIDTH: 137cm

PRINTED WIDTH: varies per design

PATTERN REPEAT: varies per design

APPLICATION: Upholstery, Accessories,

FLAME RETARDANCY: AS/NZS 1530 pt 2 & 3

ABRASION: 150 000 rubs Martindale

#### CARE & CLEANING:

Regular care:

- Vacuum regularly using low suction
- Rotate reversible cushions regularly
- Protect from direct sunlight

Cleaning:

Do not remove cushion covers for separate cleaning or washing, even though they may have zippers. Shampoo clean using upholstery shampoo. Do not use dishwashing or laundry detergents. Do not wet filling. Do not scrub with a stiff brush. Gently vacuum to restore pile. Dry in shade away from direct heat. Allow to dry thoroughly before re-use

or

Clean with hot-water extraction machine (hot).

Professional cleaning recommended. Use only upholstery detergent. Do not wet filling. Gently vacuum to restore pile. Dry in shade away from direct heat. Allow to dry thoroughly before use.

Spot Cleaning:

Treat spills and stains as soon as possible. Gently scrape any soil or mop any liquid from the surface of the fabric, apply proprietary cleaning agents strictly according to instructions to remove the residue of the spill. Do not saturate the fabric or interior with water or other cleaning liquids. May be spot cleaned with dry cleaning solvent.

Allow to dry thoroughly before re-use; or Shampoo clean using upholstery shampoo. Do not use dishwashing detergent. Do not wet filling. Do not scrub with a stiff brush. Dry in shade away from direct heat. Allow to dry thoroughly before re-use.

or

### Washing Instructions (for Slip Wash Covers only)

If your covers are too bulky for your machine we recommend professional washing by your local laundry, followed by professional laundry tumble drying on warm setting. Use a gentle cycle and do not wash the fabric at a temperature exceeding 40 degrees. Use a washing agent that does not contain optical brighteners and which is suitable for colour retention such as Earth Choice (3 X Ultra concentrate liquid), or Eco Store Laundry Powder or Omo Colour. Dry cleaning is possible if preferred, but some colour variation may occur if cushions are cleaned separately from the main covers. PLEASE CONTACT EMILY ZIZ FOR FURTHER AND MORE DETAILED CLEANING INSTRUCTIONS.

BASE CLOTH WIDTH: 145cm

PRINTED WIDTH: varies per design

PATTERN REPEAT: varies per design

APPLICATION: Drapery, Drapery, Light Reduction

Drapery

FLAME RETARDANCY: AS/NZS 1530 pt 2

CARE & CLEANING - COATED DRAPERY &  
MACHINE WASHABLE:

- Dry Cleanable
- When machine washing, use cold water on a gentle cycle
- Do not pin dry, do not tumble dry, do not wring dry
- For best results hand wash in warm water (no warmer than 30 degrees celsius)
- Once washing is complete product needs to be pulled flat gently and immediately making sure that no coating is allowed to dry in contact with itself or the coating may stick
- Store goods at temperature above 15 degrees Celsius for 24 hours prior to processing
- When hanging, vacuum regularly with a brush attachment
- The products are designed to be cleaned 3 - 4 times in their lifetime, cleaning more than that or cleaning outside recommended settings may cause the coating to stick and be subsequently damaged

SEE ALL PRINT PATTERNS: <https://emilyziz.com/print-catalogue>

# FRIDA

A TEXTURED SHEER BASE CLOTH WITH A NATURAL COTTON FEEL

APPLICATION: Acoustic Panels, Pinboards

FLAME RETARDANCY: AS/NZS 1530 pt 3, AS/NZS 3837, 1998 Cone Calorimeter

SUSTAINABILITY: OEKO-TEX Certified

### CARE & CLEANING:

- Gently vacuum regularly with appropriate attachment
- If the fabric is subject to spillage, it should be blotted up immediately, while still wet or fresh. Use white towels or an absorbent cloth. Keep blotting and changing the absent material until no more of the spillage is observed.
- Warm soapy water, or upholstery shampoo cane used for any marks or stains. Pre-test all solutions on an inconspicuous area. Hold a white towel against the tested area for a few seconds and examine to make sure no colour has transferred. When using liquid cleaners work from the outer ring of the stain, toward the centre. Always rinse with lean water and blot dry to finish, as detergent residue tends to attract soiling.
- These are a general guide to cleaning acoustic panels. If in any doubt please contact a cleaning specialist. Emily Ziz can take no responsibility for damage caused by use of these suggestions.
